OUR PRODUCTS HAVE LIMITED AVAILABILITY AND MAY BE WITHDRAWN AT ANY TIME.
AFTER A PRODUCT IS WITHDRAWN NO FURTHER APPLICATIONS CAN BE ACCEPTED.

YOUR HOME MAY BE REPOSSESSED IF YOU DO NOT KEEP UP REPAYMENTS ON YOUR MORTGAGE

ADDITIONAL LOAN PRODUCTS

Criteria For Additional Loans

You can apply for an Additional Loan if:-

- The property is your main residence
- There are no specific conditions on your current mortgage that prevents an Additional Loan
- You have not missed any payments within the last 12 months, and have not missed more than one payment in the last 24 months
- Your mortgage account has been open for at least 6 months,
- The purpose of the loan is acceptable to us
- The loan meets all our other normal lending criteria.,

Offer, Acceptance and Completion

To qualify for our Additional Loan, any Additional Loan offer that we may make has to be issued within three months of the date of your application, and your Additional Loan must be completed within six months of the date of offer. If either of these deadlines are not met and the product you applied for has been withdrawn, you will need to select a new mortgage product.

An Additional Loan is subject to our mortgage conditions and mortgage loan terms (or Offset account terms in the case of an Offset mortgage). Copies will have been given to all applicants with their original mortgage offer (where mortgage completion took place after 6 January 2011), or with the letter explaining the integration with Yorkshire Building Society sent to all then Chelsea Building Society borrowers in January 2011. Offset mortgage products taken after 10th October 2011 are subject to our Offset account terms instead of our mortgage loan terms.

These terms and conditions take precedence over information contained in this factsheet or any other information given to you.

ADDITIONAL LOAN PRODUCTS

Interest Rate & Initial rate period (where applicable)		Reverting to the Chelsea's SVR for the remaining term	The overall cost for comparison is	Product Fee	Early repayment charge	Maximum Loan to Value	Minimum/ Maximum loan amount	10% or partial overpayments allowed	Product Code

Mortgage Illustration

This factsheet does not contain all of the details you need to choose an Additional Loan.

Please speak to one of our Mortgage Advisers who can provide you with a Mortgage Illustration which will detail all the features of a particular Additional Loan. Please make sure you read the Mortgage Illustration before you make your choice.

Representative Example

Based on an assumed completion date of 31/07/24, a mortgage of £50,000 payable over 15 years, initially on our 4.99% fixed rate until 31/07/29, followed by Chelsea's Standard Variable Rate currently 8.24% for the remaining 10 years. This would require 60 monthly payments of £395.34 and then 120 monthly payments of £459.74. The total amount payable would be £79,070.17 made up of the loan amount plus interest of £28,976.67, a product fee of £0.00 plus a valuation fee of £70.00, and a funds transfer fee of £35.00.

The overall cost for comparison is 6.5% APRC.

Note: What you will pay may vary from this and will depend on your personal circumstances.

Further Information Applicable To Additional Loans

Chelsea Building Society's Standard Variable Rate (SVR)

With effect from 24th September 2023 Chelsea Building Society's Standard Variable Rate is currently 8.24%. Chelsea Building Society's Standard Variable Rate is set independently of Yorkshire Building Society's Standard Variable Rate. This is because Chelsea Building Society is operated under its own brand and with its own products and services. Accordingly, Chelsea Building Society's Standard Variable Rate may be different from Yorkshire Building Society's Standard Variable Rate at any time and can vary upwards or downwards from time to time.

Annual Percentage Rate of Charge (APRC)

This is a figure which all lenders must quote when referring to mortgages. It is designed to show the total yearly cost of a mortgage stated as a percentage of the loan. It includes items such as the interest rate payable at the start of the mortgage and after the initial rate period has ended, Product Fee where applicable, Revaluation Fee, and Mortgage Fee. It is the overall cost for comparison purposes. This figure is intended to help customers to compare the overall cost of different loans.

Collar Applicable to Bank of England Base Rate Trackers

A minimum interest rate (collar) applies to the Bank of England Base Rate (BoE) Tracker products in this factsheet. The minimum interest rate charged during the tracker period will not fall below the collar rate specified.

For example: Product 4.88% variable (BoE+0.38%) to 28/02/26 with a collar of 1.38%. The minimum interest rate charged (collar) will be 1.38% until 28/02/26.

Maximum Loan Amount

Where the LTV (Loan to Value) is lower than 75% we will consider loans above the maximum amount available. This is subject to the size and purpose of the loan. Please contact us for further details.

Loan to value (LTV)

To minimise the risk to Chelsea Building Society in the current mortgage environment, we have reviewed the range of products we offer existing customers. Like many of the mortgage deals currently on offer, our existing customer products now take into account your mortgage balance compared to the estimated value of your property (this is known as Loan to Value). We calculate this estimated value by using our House Price Index, which is recalculated every quarter. This is the figure which we use when assessing your eligibility for our products unless you request a revaluation.

Portability

In the future if you decide to move home, in most cases you can take your current product with you (this is called portability), provided you and the property you are buying meet our existing lending criteria at that time.

Top up products: When borrowing £50,000 or more: Top up borrowing can be taken from the current range of house purchase products including those with incentives. When borrowing less than £50,000: Top up borrowing can be taken from the current range of house purchase products with no incentives, or from the range of portability only - top-up products dependant on loan size.

Self Cert: If the existing mortgage was self-certified, the top up product should be full status. A straight port (same or lower loan size and LTV) is allowed without income verification - subject to payment history.

Full Status: Where the original mortgage is on a full status product, the portability top up amount must also be on a full status basis, with income verification to support the entire loan. Where the applicant chooses to add the Product Fee to the mortgage at completion, we will not include this in the LTV calculation.

All portability top-ups are subject to product criteria, including minimum loan size, maximum LTV, product fee and credit score.

In all cases: A new valuation will be carried out for all portability applications, regardless of whether a top-up product is required to determine the new loan to value (LTV) for lending purposes. A non-refundable standard valuation fee is payable for this, and this fee will automatically be added to the mortgage account and interest charged on this daily. Alternatively, you can pay the valuation fee by card or send a cheque for the fee at the time the valuation is instructed to avoid being charged interest on this fee.

LTV - The LTV is calculated using the total of the outstanding mortgage balance and the amount of any top-up borrowing required, compared to a new valuation of the property. Any top-up borrowing will be agreed on a capital and interest repayment basis only.

Further Information Applicable To Additional Loans (continued)

Early Repayment Charges (ERC)

Early Repayment Charges (ERC) for Products with 10% Overpayment Limits

In the event of full repayment, payments totalling more than 10% of the outstanding loan amount or transfer (in full or in part) to an alternative product or to Chelsea Building Society's Standard Variable Rate, on or before the end of the ERC period, an ERC is payable. The ERC is calculated at the rate applicable for the year in which the repayment or transfer occurs and is based on the amount repaid or transferred.

For example, with a Product Transfer: £100,000 is transferred to a 1.84% fixed rate product until 28/02/26. If you decide to repay this mortgage in full before 28/02/25 and the balance outstanding on the day of redemption is £98,000, the ERC will be $2.5\% \times £98,000 = £2,450$. If you decide to repay this mortgage in full before 28/02/26 but after 28/02/25, and the balance outstanding on the day of redemption is £98,000, the ERC will be $1.5\% \times £98,000 = £1,470$.

For example, with an Additional Loan: £30,000 is borrowed on a 1.84% fixed rate product until 28/02/26. If you repay this Additional Loan in full before 28/02/25, and the balance outstanding on the day of redemption is £24,500, the ERC will be $2.5\% \times £24,500 = £612.50$. If you repay this Additional Loan in full before 28/02/26 but after 28/02/25, and the balance outstanding on the day of redemption is £24,500, the ERC will be $1.5\% \times £24,500 = £367.50$.

The exception to this is that you may repay (part or lump sum) up to 10% of the outstanding loan amount in each 12 month period (calculated from the date of completion of your additional loan or product transfer or from each anniversary of completion) without incurring an ERC. Any amount repaid over the 10% limit (including policy proceeds such as maturing endowments) will incur an ERC of the percentage specified on the excess amount.

For example, with a Product Transfer: If £100,000 is outstanding on the first anniversary of completion of your product transfer, you can repay up to £10,000 (10%) in the following 12 month period without incurring an ERC. If you decide to repay more than this e.g. £15,000, you will incur an ERC of the specified percentage on £5,000 as this is the amount in excess of the 10% limit.

For example, with an Additional Loan: If you borrow £25,000, you can repay up to £2,500 (10%) in the 12 month period following completion of your Additional Loan without incurring an ERC. If you repay more than this amount, e.g. £6,000, you will incur an ERC of the specified percentage on the £3,500 as this is the amount in excess of the 10% limit.

After the end of the ERC period, overpayments of any amount are allowed without incurring an ERC. If a product does not have ERCs then overpayments are allowed without restriction. Any overpayments may not be subsequently redrawn once they have been made to reduce the mortgage balance.

Early Repayment Charges (ERC) for Products with 50% Overpayment Limits

In the event of full repayment, payments totalling more than 50% of the outstanding loan amount or transfer (in full or in part) to an alternative product or to Chelsea Building Society's Standard Variable Rate, on or before the end of the ERC period, an ERC is payable. The ERC is calculated at the rate applicable for the year in which the repayment or transfer occurs and is based on the amount repaid or transferred.

For example, with a Product Transfer: £100,000 is transferred to a 1.94% fixed rate product until 28/02/26. If you decide to repay this mortgage in full before 28/02/25, and the balance outstanding on the day of redemption is £98,000, the ERC will be $2.5\% \times £98,000 = £2,450$. If you decide to repay this mortgage in full before 28/02/26 but after 28/02/25 and the balance outstanding on the day of redemption is £98,000, the ERC will be $1.5\% \times £98,000 = £1,470$.

The exception to this is that you may repay (part or lump sum) up to 50% of the outstanding loan amount in each 12 month period (calculated from the date of completion of your product transfer or from each anniversary of completion) without incurring an ERC. Any amount repaid over the 50% limit (including policy proceeds such as maturing endowments) will incur an ERC of the percentage specified on the excess amount.

For example, with a Product Transfer: If £100,000 is outstanding on the first anniversary of completion of your product transfer, you can repay up to £50,000 (50%) in the following 12 month period without incurring an ERC. If you decide to repay more than this e.g. £65,000, you will incur an ERC of the specified percentage on £15,000 as this is the amount in excess of the 50% limit.

After the end of the ERC period, overpayments of any amount are allowed without incurring an ERC. If a product does not have ERCs then overpayments are allowed without restriction. Any overpayments may not be subsequently redrawn once they have been made to reduce the mortgage balance.

Further Information Applicable To Additional Loans (continued)

Loan Amount

On our Additional Loan, the maximum loan amount available varies depending on several factors, including the loan purpose, LTV, the property type etc. Our Contact Centre Sales team will be happy to discuss your requirements and confirm the amount you may be able to borrow.

Loan to Value (LTV) and revaluation

To ensure that we are able to lend the amount you wish to borrow we need to establish the total of your mortgage balance and the amount of additional borrowing, compared to the value of your property (this is known as Loan to Value or LTV). In order to do this, in some cases we will require a revaluation of your property. Please contact us to check if this will apply to you.

If a revaluation is required a non-refundable revaluation fee of £70 is payable. The resulting LTV figure will be used when assessing your eligibility for our products.

This fee is payable on request of a revaluation. This can either be paid by debit/credit card over the phone.

Release of funds

Please note that a Funds Transfer Fee of £35 will be payable for the release of Additional Loan Funds electronically so that you (or the legal adviser if appropriate) receive the funds the same day. This fee will be deducted from your mortgage advance. Alternative methods of releasing the funds are available (BACS or Internal Transfer) which do not incur a charge. Further details of this fee will be included in your mortgage offer.

Where the total debt including the Additional Loan is below 85% of the current value of the property (i.e. before any work is carried out), the money can be released as soon as your Additional Loan is approved, and you have accepted your Additional Loan offer

Information required

If the Additional Loan is for any structural changes to the property, copies of the plans and all necessary planning approvals and building regulation consents will be required at the time of the application. Estimates for the work will be required if the total loan is above 85% of the current property value.

Equivalent Savings Interest Rates For Current Offset Transfer Products and Offset Additional Loan Products

Offset Product Rate	Product Type	Zero rate Taxpayer	Basic Rate Taxpayer	Higher Rate Taxpayer	Additional Rate Taxpayer
5.29%	Fixed	5.29%	5.29%	5.29%	9.62%
5.70%	Fixed	5.70%	5.70%	5.70%	10.36%
5.76%	Fixed	5.76%	5.76%	5.76%	10.47%
6.06%	Fixed	6.06%	6.06%	6.06%	11.02%
6.29%	Fixed	6.29%	6.29%	6.29%	11.44%

You do not earn any interest on an Offset savings account(s). However, by linking savings to your mortgage, you only pay interest on the difference between your Offset mortgage balance and Offset savings balance(s). The money in your Offset savings account(s) therefore benefits from the equivalent of the interest rate charged on your Offset mortgage. The equivalent savings interest rates shown above are based on the current interest rate of the mortgage product so where this rate is variable or reverts to a variable rate after an initial fixed rate period, the benefit you get from your savings will change at the same time. These figures also assume your Offset savings are offset against the mortgage products shown.

The above example assumes that basic and higher rate tax payers do not pay tax on their savings and that additional rate taxpayers pay 45% tax on savings interest and are based on current HM Revenue and Customs rules which are subject to change.

Customer usage of any applicable Personal Savings Allowance is not included within these calculations.

Whether you need to pay tax is dependent on your own personal circumstances and so may be subject to change in the future.

Early Repayment Charge (ERC) for Offset Mortgage Products With Partial Overpayments Allowed

If the product is repaid in full or transferred (in full or in part) to an alternative product or to Chelsea Building Society's Standard Variable Rate, on or before the end of the ERC period, an ERC is payable. However, partial overpayments (monthly or lump sum) of any amount are allowed without charge.

The ERC is calculated at the rate applicable for the year in which the repayment or transfer occurs. The ERC is based on the original transfer or the original Additional Loan amount and so disregards any payments (including usual monthly payments) you make which may have reduced the total amount transferred or borrowed.

For example, with a Product Transfer: £100,000 is transferred to a 2.13% fixed rate product until 28/02/26. If you decide to repay this mortgage in full before 28/02/25, the ERC will be $2.5\% \times £100,000 = £2,500$. If you decide to repay this mortgage in full before 28/02/26 but after 28/02/25, the ERC will be $1.5\% \times £100,000 = £1,500$.

For example, with an Additional Loan: £42,000 is borrowed on a 2.13% product fixed to 28/02/26. If you repay this Additional Loan in full before 28/02/25 the ERC will be $2.5\% \times £42,000 = £1,050$. If you repay this Additional Loan in full before 28/02/26 but after 28/02/25 the ERC will be $1.5\% \times £42,000 = £630$.

After the end of the ERC period, overpayments of any amount are allowed without incurring an ERC. If a product does not have ERCs then overpayments are allowed without restriction. Any overpayments may not be subsequently redrawn once they have been made to reduce the mortgage balance.

Information relevant to all Offset Accounts

Your existing mortgage and Additional Loan amount must be taken on Offset products only. Offset and non-Offset products cannot be mixed. Please contact us if you would like further information about our Offset savings accounts.

Offset Accounts

For important information about our Offset mortgages and the options available to you to manage the mortgage term and monthly payments, please read our 'A guide to your Offset Options' leaflet.

SUMMARY BOX

Account Name	Offset Savings						
What is the interest rate?	<table border="1"> <thead> <tr> <th colspan="2">Annual Interest</th></tr> </thead> <tbody> <tr> <td>Gross p.a.</td><td>AER*</td></tr> <tr> <td>0.00%</td><td>0.00%</td></tr> </tbody> </table> <p>Whether you need to pay tax is dependent on your own personal circumstances and so may be subject to change in the future.</p> <p>* AER stands for the Annual Equivalent Rate and shows you what the interest rate would be if interest was paid and added each year. This will enable you to compare more easily the return you can expect from your savings over time.</p>	Annual Interest		Gross p.a.	AER*	0.00%	0.00%
Annual Interest							
Gross p.a.	AER*						
0.00%	0.00%						
Can Chelsea Building Society change the interest rate?	Not applicable for this account.						
What would be the estimated balance after 12 months based on a £1000 deposit?	Not applicable for this account. The balance in this account will be offset against the balance of your Chelsea Building Society Offset mortgage for the purposes of calculating interest on your mortgage.						
How do I open and manage my account?	<p>Eligibility The Offset Savings account is only available in conjunction with a Chelsea Building Society Offset mortgage.</p> <p>Account management The account can be managed online.</p> <p>The minimum balance is £zero.</p> <p>The maximum balance is up to 100% of your Offset mortgage. Please note however that if your savings balance exceeds your Offset Mortgage balance, you will not receive any benefit from or be paid interest on the surplus.</p>						
Can I withdraw money	<p>Withdrawals The Offset Savings Plus account allows instant withdrawals, subject to daily limits without loss of interest. Please contact us for more details.</p> <p>Maturity After repayment of the balance of the Chelsea Building Society Offset mortgage, the balance in the Offset Savings Account (if any) will be transferred to an Access Saver account as soon as reasonably practicable and, in any event, within 30 days.</p>						
Additional Information	If Chelsea Building Society becomes insolvent, funds held with it in Offset savings accounts will not be used to set-off (reduce) the mortgage balance owed. This amount will remain fully repayable. If you have more than £85,000 in your Offset savings account then you may still be due some of these funds, but you will need to make a claim as part of any insolvency proceedings.
